Stop contacting me or my children. I will show your texts to your children and nieces if they ask me what happened here.

I want nothing more to do with you. You are pathetic and angry. You should seek medical help and anger management counseling. I feel terrible for your kids and wife. **If you contact me again, I will involve the police.**

Cathy.....it is clear that you are bipolar and you need professional help. You need to get it for the sake of your children. I am not mad, I just want you to get better. Until you get help, a relationship with you is impossible. I am not wasting anymore of our time.
